PROJECT NAME	Smart Farmer - IOT enabled smart farming application

IOT ENABLED SMART FARMING APPLICATION - Customer experience journey map

Use this framework to better understand customer needs, motivations, and obstacles by illustrating a key scenario or process from start to finish. When possible, use this map to document and summarize interviews and observations with real people rather than relying on your hunches or assumptions.

Created in partnership with  Product School

Document an existing experience

Narrow your focus to a specific scenario or process within an existing product or service. In the **Steps** row, document the step-by-step process someone typically experiences, then add detail to each of the other rows.

TIP
As you add steps to the experience, move each these "Five Es" the left or right depending on the scenario you are documenting.

SCENARIO	Entice	Enter	Engage	Exit	Extend
Browsing, booking, attending, and rating a local city tour					
<div>Steps</div> <div>What does the person (or group) typically experience?</div>	<div>Visit the website or app</div> <div>The user should navigate to our website or app</div> <div>Check the Weather</div> <div>The app first check the Weather of particular location today</div> <div>Check the humidity</div> <div>The app use hygrometer to measure the Humidity</div>	<div>Login to the App</div> <div>[caption describing what someone typically experiences during this step]</div> <div>Check the Soil Moisture</div> <div>Using the app user can check the soil Moisture whether it is dry or not</div> <div>View the Humidity of The soil</div> <div>App can intimate the Result</div> <div>Switch On the Motor</div> <div>If the field is Dry We can able to Switch on the Motor</div>	<div>Alert Message</div> <div>User can get alert when certain soil humidity level reached</div> <div>Switch on/off the motor</div> <div>Using app user can switch on/off the motor From anywhere</div>	<div>Ensure the yield of the crop</div> <div>Submitting Feedback</div> <div>After the growth of the crop we can Ensure the yield of the crop</div> <div>The User can writes are view and gives ideas of the app</div>	<div>Farming in the user profile</div> <div>In the customer profile they can see the data about the field.</div> <div>Personalized Work</div> <div>Farmer should not engage themselves fulltime in the field, they can feel relax by using this application</div>
<div>Interactions</div> <div>What interactions do they have at each step along the way?</div> <div><div>■ People: Who do they see or talk to?</div><div>■ Places: Where are they?</div><div>■ Things: What digital touchpoints or physical objects would they use?</div></div>	<div>Signup/Signin page for the users</div>	<div>Weather Forecast shows the weather for routine days</div>	<div>It show the Temperature and humidity of our field</div>	<div>Customer's email (website like Gmail)</div> <div>Leave a feedback modal window within the profile on the website, iOS app or Android app</div>	<div>Completed experiences section of the profile on the website, iOS app or Android app</div>
<div>Goals & motivations</div> <div>At each step, what is a person's primary goal or motivation? ("Help me..." or "Help me avoid...")</div>	<div>Help me get the field temperature</div> <div>Access from anywhere at anytime</div> <div>Help me understand our Land Field and climate condition</div>	<div>Remotly we can access the motor switch</div>	<div>Help me feel confident about where to go and spent time in other work</div>	<div>Help me to see what could be doing next</div>	
<div>Positive moments</div> <div>What steps does a typical person find enjoyable, productive, fun, motivating, delightful, or exciting?</div>	<div>Increased quality of production</div> <div>It Saves Time and reduce labour cost</div>	<div>Modern Technology Has Made Water Supply Simple</div>		<div>People love to remote access control, we have a 96% satisfaction rating</div>	
<div>Negative moments</div> <div>What steps does a typical person find frustrating, confusing, angering, costly, or time-consuming?</div>	<div>In some rural areas the network connectivity was poor</div> <div>Some people don't know how to use the smart device</div>	<div>Rural People express a bit of fear to use technology</div>			
<div>Areas of opportunity</div> <div>How might we make each step better? What ideas do we have? What have others suggested?</div>	<div>provide a simpler information about smart farming</div>	<div>By these technology most literate peoples are ready to do farming</div>
